REMEMBER US?

We are back in the seedling business! After a few years of keeping our plants to ourselves we once again offer you a chance to get into the orchid world or to increase your present supply. Remember, the only way to keep a collection up to date is to supplement it often with new plants.

We offer you the following HYBRID CATTLEYA seedlings which were created from our own stud plants. All are in excellent condition and should mature into blooming beauties that would make any collector proud to own one.

We cannot guarantee your crop nor the productiveness of the plants. Our liability is limited to the purchase price of the plants in any event.

Small seedlings are shipped in pots, larger size out of pots. No packing charges. Express collect, cash with order, please.

PRICES

community pots (20 or more plants)	\$10.00 & 15.00
1 3/4" " (well established)	1.00
1 3/4" " (growth at least 4")	1.75
